- 1. An airfield about 2,000 meters long and 500 meters wide is located about two kilometers south of Plovdiv on the road to Chirpan. No hard-surface runway was seen and the airfield has only one hangar. Two 2-seater low-wing trainers with a top speed of not more than 200 kilometers per hour were seen in the air.
- Plovdiv did not have the appearance of being a military garrison and only about 12 uniformed troops were observed in town.
- 3. A metal tower about 20 meters high and $2\frac{1}{2}$ meters wide at its widest point was noticed two kilometers beyond Ikhtiman on the Sofia-Plovdiv Road. The tower is completely isolated and there was no sign of construction or lead-in wires near it.
